

# RACLETTE GRILL

## *with reversible plate*

Multifaceted, elegant and safe

This appealing Raclette grill ensures variety and fun on the table! The solid appliance made of aluminium and stainless steel is equipped with a practical reversible plate. The easy to clean non-stick coating and the infinitely adjustable temperature control make this Raclette grill perfect for grill specialties of all kinds. The ridged side provides meat and vegetables with the typical grill marks and the flat side with the two embossed crêpes forms make baking of pancakes & co. very easy. Of course, these are also suitable to prepare fish and fruit in Teppanyaki style. In the 8 non-stick coated pans, you can gratinate a variety of snacks or melt cheese at the same time. The pans can be inserted from all four sides – this is perfect for the big round-table. And in the breaks during eating you can place the used pans in a special parking deck safely and space-savingly. Furthermore, the integrated overheating protection, the separate On/Off-switch as well as the clear pilot lamps provide much security in handling this Raclette grill. A multifaceted appliance for all year-round Raclette fun in a small as well as in a larger group.

### Technical data:
