

# RACLETTE GRILL

## with 3 combination plates

Shared fun is twice the fun

This high quality raclette made by ROMMELSBACHER guarantees even more culinary variety when raclette-grilling. You can freely combine the different turnover grill plates, thus you are flexible in choosing and combining the grilling surfaces. Whether on both of the high quality coated turnover grill plates (one side corrugated, the other one smooth) or on natural stone - there is an excellent selection to suit all tastes. On the granite plate you can grill directly on the stone. This material is scratch- and cut-resistant and provides outstanding grill result, no matter whether for meat, fish or vegetables. The circumferential juice groove collects grease or liquids and thus allows for low fat grilling. The both die-cast aluminum grills can be used on both sides. Whether grilling with the typical grilling marks or rather in Teppanyaki style on a smooth plate - everything is possible. The 8 non-stick coated pans can be used as raclette pans for cheese or for gratinating delicious snacks and side-dishes to suit your own taste. A popular and versatile raclette version for all year long grill fun at table.

### Technical data:

- Type: **RCS 1350**
