

WAFFLE MAKERS

To serve the small & big appetite

ROMMELSBACHER

Popular with young and old alike – that's why sweet waffles have become an indispensable part of the coffee table and the Christmas season. Meanwhile, the savoury versions of this snack are also very popular, and the vegan cuisine has also discovered with waffle iron for themselves. With the Rommelsbacher waffle makers, the preparation of all these delicacies is very easy. Regardless of the recipe, the infinitely variable setting of the desired degree of browning makes every waffle style perfect. The baking light helps with the right timing. If it needs to be a little more for the family, for a group or for the big appetite, then the model WA 1250 with double baking surface is the best choice. With both models, good operating safety is ensured by the heat-insulated handle and integrated overheating protection. The high-quality non-stick coating makes it easy to take the waffles out and ensures easy cleaning as well. And 'afterwards' both appliances make themselves quite slim, because they can be stored upright in the kitchen cupboard in order to save space. Thus, there are many reasons to choose one of these contemporary waffle makers!
