

# TRAVEL KETTLE

*compact & lightweight*  
*Ideal for travel, camping & small households*

The compact WK 1000 travel kettle from ROMMELSBACHER is the ideal companion for when you're on the go – on holiday, in a camper van or in a small household. With a 0.6-litre capacity, the appliance heats water quickly and reliably to 100 °C – perfect for tea, coffee or instant soups. Particularly practical: the fold-away handle, the integrated cable rewind system and the carry bag for space-saving storage in your luggage. The 360° central base allows for comfortable placement – for both right- and left-handed users. The large on/off button with indicator light ensures easy operation. A removable lid, wide filling opening and sealed base make filling and cleaning easy. A cool-touch housing, overheating protection and automatic shut-off ensure high safety during use. Whether at home or on the go: the WK 1000 is a well-designed, high-quality kettle that combines convenience, functionality and safety.
